To whom it may concern:

This is a request under the Freedom of Information Act, 5 U.S.C. Section 552.

I request that a copy of the all the materials enumerated below be provided to me, and that all documents responsive to this request be delivered to me within FOIA's 20-day statutory timeframe. Additionally, I request that FDA provide all documents responsive to this request in an electronic format, preferably via electronic mail. If they are too voluminous for electronic mail delivery, then I would like to receive the documents on CD-Rom. I do not wish to inspect the documents before they are provided.

In order to help to determine my status to assess fees, you should know that I am an attorney with a law firm in Washington, DC requesting these documents for my own information. I am willing to pay fees for this request up to a maximum of \$1,000. If you estimate that the fees will exceed this limit, please inform me first.

If you deny all or any part of this request, please cite each specific FOIA exemption that justifies your denial of the information and notify me of the appeal procedures available under the law. The following is the universe of requested items:

Correspondence, including but not limited to emails, letters, or facsimiles, related in whole or in part to: the advice to women who are pregnant or may become pregnant - as well as breastfeeding mothers and parents of young children - about eating seafood, fish or shellfish issued in final form jointly by the Food and Drug Administration (FDA) and the Environmental Protection Agency (EPA) on January 18, 2017; and/or the document entitled "Advice About Eating Fish: What Pregnant Women and Parents Should Know."
